SECTION 3 — INTRODUCTION TO THE ATLANTIC AMATEUR DARTS SERIES (AADS)

The Atlantic Amateur Darts Series (AADS) was founded to create a structured and professional competitive darts circuit across Atlantic Canada. The goal of the league is to provide amateur players with a high-quality tournament environment that mirrors professional darts events while still remaining accessible to local players.

The vision for AADS began after traveling to the Canadian Open in St■Hyacinthe, Quebec. During that event, several strong Atlantic Canadian players demonstrated that they had the skill to compete at a national level, but when placed under stage conditions with livestream cameras and a larger audience, the pressure significantly affected their performance.

One particular moment stood out. A well■known New Brunswick player who regularly performs at a high level locally struggled when suddenly placed on the main stage under live broadcast conditions. It became clear that many talented players in Atlantic Canada simply lacked experience playing in front of cameras, lights, and an audience.

This observation inspired the idea behind AADS: create a regional circuit where players could regularly compete in a professional-style environment. By exposing players to livestream broadcasts, structured tournament play, and higher pressure situations, the league would help players develop the confidence required to perform on bigger stages.

The Atlantic Amateur Darts Series is built around several core principles:

1. Professional Event Standards – Events are run with clear rules, organized scheduling, and accurate scorekeeping.

2. Player Development – Competitors gain experience performing under livestream and stage-style conditions.

3. Regional Representation – Players from across Atlantic Canada can participate in a unified circuit.

4. Fair Competition – A transparent ranking system ensures that performance determines advancement.

5. Community Growth – The league promotes darts across the Atlantic provinces and encourages new players to participate.

AADS operates as a member-supported competitive circuit. Local branches run qualifiers throughout the year which feed into Tournament of Champions events and eventually into the Elite Masters Championship. This structure allows consistent participation to be rewarded while also creating clear pathways for players to compete for larger prizes.

The long-term vision of AADS is to establish the most organized amateur darts circuit in Atlantic Canada while building a platform that gives players recognition, experience, and opportunity.

This handbook has been created to provide branch directors with the complete operational framework required to run AADS events consistently across all participating regions. By following these standards, each branch contributes to the strength, credibility, and growth of the Atlantic Amateur Darts Series.

SECTION 4 — GOVERNANCE STRUCTURE

The Atlantic Amateur Darts Series (AADS) operates under a centralized governance structure designed to maintain fairness, transparency, and consistent standards across all participating branches. As the league expands throughout Atlantic Canada, this governance framework ensures that every branch follows the same operational rules and competition standards.

AADS is led by a Commissioner and supported by Branch Directors who manage local operations in their respective regions. While branches operate locally, they remain part of the unified Atlantic circuit and must follow the official policies outlined in this handbook.

COMMISSIONER

The Commissioner serves as the highest authority within the Atlantic Amateur Darts Series.

The Commissioner of AADS is:

Matthew Dow — Founder & Commissioner

The responsibilities of the Commissioner include:

- Maintaining the official AADS rulebook and operational handbook
- Approving the expansion of new branches
- Protecting the integrity of the ranking system
- Overseeing the Elite Masters Championship
- Ensuring financial transparency across the league
- Coordinating league-wide decisions affecting the AADS circuit

All final administrative authority rests with the Commissioner. However, major structural decisions are discussed with Branch Directors before implementation.

BRANCH DIRECTORS

Each official AADS region is managed by a Branch Director. Branch Directors are responsible for organizing and operating the league within their local region while following AADS standards.

Branch Director responsibilities include:

- Organizing qualifier events
- Securing and coordinating with venues
- Managing player registrations and participation

• Maintaining official ranking spreadsheets

• Reporting event results to the Commissioner

• Ensuring DartConnect scoring is properly used during events

• Managing volunteers and scorekeepers

Branch Directors act as the primary representatives of AADS within their region and are responsible for ensuring events are conducted professionally.

DECISION MAKING & RULE CHANGES

When rule adjustments or structural changes are proposed, the Commissioner may organize a meeting with all Branch Directors to review the proposed change.

During these meetings:

• Each Branch Director may present feedback

• Discussion is held regarding the impact on local branches

• A consensus is encouraged before implementing major structural changes

This collaborative approach allows AADS to grow while ensuring each region maintains a voice in the development of the league.

EXPANSION APPROVAL

New AADS branches must receive approval from the Commissioner before becoming part of the official Atlantic circuit.

To be approved, a new branch must demonstrate:

• A reliable venue capable of hosting qualifiers

• A consistent player base

• Internet capability for DartConnect scoring

• A director capable of managing league operations

Once approved, the branch becomes part of the Atlantic circuit and must follow all AADS operational standards.

INTEGRITY OF THE LEAGUE

The governance structure of AADS exists to ensure that all competitions remain fair, transparent, and professionally managed.

Every branch must maintain:

- Accurate rankings
- Transparent financial records
- Proper tournament procedures
- Respect for the official AADS rulebook

Maintaining these standards protects the credibility of the Atlantic Amateur Darts Series and ensures the continued growth of the league across Atlantic Canada.

SECTION 5 — DISTRICT EXPANSION & LOCAL OPERATIONS

The Atlantic Amateur Darts Series (AADS) operates through local districts across Atlantic Canada. Each district director is responsible for organizing qualifier events, managing local participation, and maintaining league standards established by the AADS Commissioner.

5.1 Minimum District Requirements

Requirement	Minimum Standard
Minimum Players per Qualifier	18 players
Annual Qualifiers	9 events
Tournament of Champions Events	3 per season
Minimum Annual Participation	162 player entries

Districts maintaining these participation levels retain full Elite Masters qualification positions and operate as full AADS branches.

5.2 District Fundraising Options

District directors are permitted to organize local fundraising initiatives to support their branch. These initiatives operate separately from official AADS championship funds.

Fundraising Method	Purpose
Shot-at-the-Pot draws	Local event funding
Venue contribution ($1 per player)	Equipment and venue support
Local sponsorships	District growth
Side prize pools	Rewards for local players

5.3 Protected AADS Championship Funds

Official AADS championship funds must remain protected and may not be redirected by local districts.

Fund	Source
Tournament of Champions Fund	Qualifier entry allocation
Elite Masters Fund	$5 per entry + 50/50 contributions
Championship Growth	TOC overflow funds

5.4 Newfoundland & Labrador Participation Policy

The AADS represents the Atlantic Canada darts community. Due to geographic travel limitations, Newfoundland & Labrador does not currently operate its own AADS district.

Players from Newfoundland & Labrador may travel to mainland districts and participate in qualifier events. If a Newfoundland player travels to compete, the host district may waive the $30 qualifier entry fee. Districts may use a portion of the event 50/50 proceeds to cover this cost.

Newfoundland players must fund their own travel to mainland events. If they qualify for a Tournament of Champions event they are responsible for their own travel to that championship.

If a sufficient number of Newfoundland players develop interest in forming a district, this policy may be revisited in the future.

5.5 New District Creation Requirements

To protect league integrity, any new AADS district must demonstrate a sustainable player base.

Requirement	Minimum Standard
Active Player Base	18–20 players
Venue Partnership	Stable hosting venue
District Director	Approved by AADS Commissioner
Commitment	Ability to host 9 qualifiers annually

SECTION 6 — SEASON CALENDAR STRUCTURE

The Atlantic Amateur Darts Series operates on a structured seasonal format designed to provide consistent competition while allowing players the opportunity to travel and compete in multiple provincial circuits. Each AADS district follows the same seasonal structure but schedules events on different weekends of the month to avoid conflicts.

This system allows players to travel between provinces and participate in additional qualifier events if they choose. Increased participation across districts helps grow the league and contributes additional funding toward the Elite Masters prize pool.

6.1 Annual Event Structure

Each AADS district runs the same yearly competition structure consisting of nine qualifier events and three Tournament of Champions events.

Cycle Structure
Qualifier 1
Qualifier 2
Qualifier 3
Tournament of Champions

This four-event cycle repeats three times during the season, creating a total of nine qualifiers and three Tournament of Champions events per district each year.

6.2 Provincial Scheduling Model

To allow inter-provincial participation, each district schedules its qualifier events on different weekends of the month. This prevents scheduling conflicts and allows players to travel between circuits.

Province / District	Monthly Event Weekend
District A	First Saturday
District B	Second Saturday
District C	Third Saturday

6.3 Inter■Provincial Participation

Players may compete in qualifier events hosted by any AADS district. Participation in multiple districts is encouraged as it strengthens the competition level across the Atlantic circuit.

When a player competes in a qualifier hosted by a district, the entry fee from that event contributes to the Elite Masters fund of the hosting district.

6.4 Ranking Assignment

Ranking points earned by a player apply only to the district in which the qualifier was played. A player may therefore have separate ranking positions in multiple provincial circuits.

6.5 Tournament of Champions Eligibility

Players may qualify for Tournament of Champions events in multiple districts if they earn the required placements within each circuit. This allows players to compete in several TOC events during the season if they qualify.

6.6 Elite Masters Representation Rule

Although players may compete in multiple provincial circuits and qualify for multiple Tournament of Champions events, a player may represent only one district in the Elite Masters qualification process.

Prior to Elite qualification playoffs, players must declare the district they will represent. Their Elite ranking will then be calculated only within that district for the purpose of determining Elite Masters qualification.

SECTION 7 — FINANCIAL MODEL & MEMBERSHIP SYSTEM

The AADS financial structure is designed to fund qualifier payouts, Tournament of Champions events, and the Elite Masters Championship while maintaining transparent league operations.

7.1 Entry Fee Distribution

Entry Allocation	Amount
Qualifier Payout	$10
TOC Fund	$15
Elite Fund	$5
Total Entry	$30

7.2 AADS Membership

Players may compete in qualifier events without membership, but official ranking points are only recorded for players holding an active AADS membership.

Membership Item	Details
Annual Fee	$20
Membership Period	January 1 – December 31
Eligibility	Required for ranking points and Elite qualification

Non■members may still participate in qualifier events but must finish 1st or 2nd to qualify directly for the Tournament of Champions since their ranking points are not tracked.

7.3 50/50 League Contribution

Each event runs a 50/50 draw. Fifty percent goes to the winning ticket holder and the remaining fifty percent supports league championship funds.

Revenue Source	Destination
Before TOC Cap	Tournament of Champions Fund
After TOC Cap	Elite Masters Fund

SECTION 8 — RANKING SYSTEM

The Atlantic Amateur Darts Series (AADS) uses a structured ranking system to determine player standings throughout the season. Ranking points are earned during qualifier events and are used to determine Tournament of Champions wildcard entries and Elite Masters rankings.

Tournament of Champions events do not award ranking points. Only qualifier events contribute toward the official AADS ranking system.

8.1 Ranking Point Distribution

Placement	Points
1st	10
2nd	9
Joint 3rd	8
Joint 5th	6
Joint 9th	4
Participation	2

Participation points ensure that players who consistently attend events remain competitive within the ranking system.

8.2 Weighted Ranking System

Qualifier winners automatically qualify for the Tournament of Champions and receive weighted ranking points across the entire three■qualifier cycle.

Example: If a player wins Qualifier 1, that player receives 10 ranking points for each qualifier in the cycle (QF1, QF2, and QF3).

Event	Points
QF1	10
QF2	10
QF3	10
Total	30

Second place finishers also receive weighted points across the cycle. A second place finish awards 9 points across each qualifier in the cycle for a total of 27 points.

8.3 Qualifier Winner Lockout Rule

Players who win a qualifier event are automatically qualified for the Tournament of Champions and are locked out of the remaining qualifiers within that cycle.

Example: If a player wins Qualifier 1, that player may not participate in Qualifier 2 or Qualifier 3 of that same cycle. This rule prevents a single player from occupying multiple TOC qualification positions and ensures fair opportunity for other competitors.

8.4 Example Qualifier Results (24 Players)

Placement	Player	Points
1st	Player A	10
2nd	Player B	9
Joint 3rd	Player C	8
Joint 3rd	Player D	8
Joint 5th	Player E	6
Joint 5th	Player F	6
Joint 5th	Player G	6
Joint 5th	Player H	6
Joint 9th	Player I	4
Joint 9th	Player J	4
Joint 9th	Player K	4
Joint 9th	Player L	4
Joint 9th	Player M	4
Joint 9th	Player N	4
Joint 9th	Player O	4
Joint 9th	Player P	4
Participation	Player Q	2
Participation	Player R	2
Participation	Player S	2
Participation	Player T	2
Participation	Player U	2
Participation	Player V	2
Participation	Player W	2
Participation	Player X	2

8.5 Tournament of Champions Qualification

Each qualifier sends two automatic players to the Tournament of Champions: the 1st place and 2nd place finishers. Across three qualifiers this produces six automatic TOC entrants.

8.6 Wildcard Qualification

The Tournament of Champions consists of ten total players. After the six automatic qualifiers are determined, the remaining four positions are awarded to the highest ranked players who have not yet qualified.

Rank	Player	Points	Status
1	Player A	30	Qualified
2	Player B	27	Qualified
3	Player C	24	Wildcard
4	Player D	23	Wildcard
5	Player E	22	Wildcard
6	Player F	21	Wildcard
7	Player G	19	Alternate
8	Player H	18	Alternate

SECTION 9 — TOURNAMENT OF CHAMPIONS STRUCTURE

The Tournament of Champions (TOC) is the championship event that concludes each three-qualifier cycle of the Atlantic Amateur Darts Series (AADS). Players earn their place in the TOC through qualifier performance and ranking positions. The TOC field consists of 10 players competing for the championship prize pool.

9.1 TOC Player Field

Qualification Method	Players
Qualifier Winners	3
Qualifier Runners-Up	3
Ranking Wildcards	4
Total Players	10

9.2 Entry Fee Policy

Players do not pay an entry fee to participate in the Tournament of Champions. Players earn their position through qualifier performance and ranking results. Entry fees collected during qualifiers fund the TOC prize pool, making the championship event a reward for successful qualification.

9.3 TOC Prize Pool

Placement	Prize
1st	$400
2nd	$220
3rd	$100
4th	$100
5th	$30
6th	$30
7th	$30
8th	$30
9th	$30
10th	$30

9.4 Group Stage Format

The Tournament of Champions begins with a group stage. The 10 qualified players are divided into two groups of five players. Each group competes in a round-robin format where every player plays each opponent in their group once.

Group	Players
Group A	5
Group B	5

9.5 Group Match Format

All group stage matches are played as Race to 3 legs. Group stage matches are scheduled in 25-minute time slots to maintain consistent event flow and scheduling.

9.6 Advancement to Knockout Stage

The top four players from each group advance to the knockout stage. This produces eight players advancing into the elimination bracket.

Group	Advancing Players
Group A	4
Group B	4

9.7 Knockout Stage Format

The knockout rounds transition to set play. This format increases competitive intensity during the championship portion of the event.

Round	Format
Quarterfinals	Set Play
Semifinals	Set Play
Final	Set Play

A common format example is Best of 3 Sets for Quarterfinals and Semifinals, and Best of 5 Sets for the Final. Each set consists of a Race to 3 legs.

9.8 Knockout Bracket Structure

Match	Players
Quarterfinal 1	A1 vs B4
Quarterfinal 2	A2 vs B3
Quarterfinal 3	B1 vs A4

Quarterfinal 4	B2 vs A3

9.9 50/50 Draw Policy

Tournament of Champions events will run a 50/50 draw. Fifty percent of ticket sales go to the winning ticket holder, while the remaining fifty percent goes to the AADS league fund.

If the Tournament of Champions prize pool has not yet reached the $1000 cap, the league portion of the 50/50 contributes to the TOC fund. Once the TOC prize pool cap is reached, all additional 50/50 revenue must be directed to the Elite Masters fund.

SECTION 10 — ELITE MASTERS CHAMPIONSHIP

The Elite Masters Championship is the final championship event of the Atlantic Amateur Darts Series (AADS). This event brings together the top ranked players from each participating district to compete for the largest prize pool on the AADS circuit. The Elite Masters represents the highest level of competition within the Atlantic Amateur Darts Series structure.

10.1 Elite Masters Qualification

District	Players Sent
New Brunswick	8
Nova Scotia	8
Prince Edward Island	8
Total Competitors	24

Each participating district sends eight qualified players based on their seasonal ranking standings. These players represent their district at the Elite Masters Championship.

10.2 Participation Requirement Protection

Districts that maintain a minimum participation level of 18 players per qualifier retain their full allocation of eight Elite Masters positions. This represents a minimum of 162 player entries per year across nine qualifiers.

10.3 Elite Masters Tournament Structure

Group	Players
Group A	6
Group B	6
Group C	6
Group D	6

The Elite Masters begins with a round robin group stage. Each group contains six players. Every player competes against the other players in their group for a total of five matches each.

10.4 Advancement to Knockout Stage

Group	Advancing Players
Group A	Top 4
Group B	Top 4

Group C	Top 4
Group D	Top 4

After the group stage concludes, the top four players from each group advance to the knockout stage. This produces a sixteen player elimination bracket.

10.5 Knockout Stage Structure

Round	Matches
Round of 16	8
Quarterfinals	4
Semifinals	2
Final	1

10.6 Broadcast Structure

The Elite Masters Championship is designed as a broadcast event. The group stages and early knockout rounds are played throughout the day, while the final championship rounds are livestreamed as the Elite Championship broadcast.

Round	Livestream Matches
Quarterfinals	4
Semifinals	2
Final	1
Total Broadcast Matches	7

10.7 Elite Masters Prize Pool

Placement	Players	Prize
1st	1	$2000
2nd	1	$1000
Joint 3rd	2	$500
Joint 5th	4	$250
Joint 9th	8	$100
17th–24th	8	$50

10.8 Elite Fund Projection Example (24 Players per Qualifier)

Revenue Source	Amount
Elite contribution from entries	$1080
TOC overflow contributions	$240
50/50 draws across 12 events	$1200
Total Elite contribution per province	$2520

With three provinces operating within the AADS circuit, the projected Elite Masters fund can exceed $7500 annually. The official championship payout is set at $6200, ensuring the event remains financially stable while allowing future growth of prize pools and league infrastructure.

SECTION 11 — EVENT OPERATIONS MANUAL

This section outlines the official procedures for operating Atlantic Amateur Darts Series (AADS) events. These procedures ensure every district runs events consistently across the AADS circuit and maintains the professional standards expected of the league.

11.1 Event Preparation

Each AADS event requires the host district director to prepare the venue prior to the start of competition. Preparation includes dartboard setup, proper lighting, player check■in procedures, scorekeeping systems, and bracket management through DartConnect when available.

11.2 Venue Board Requirements

Event Phase	Recommended Boards
Group Stage	8–16 boards available
Knockout Stage	4–8 boards
Livestream Feature Board	1 dedicated board

Qualifier events should ideally have access to at least sixteen boards. This allows group stage matches to run simultaneously and keeps the event within a single■day schedule.

11.3 Player Check■In

Players should check in before the event begins. Recommended check■in time is between 8:00 AM and 8:45 AM with matches beginning at 9:00 AM. Directors confirm player registration, membership status, and eligibility for ranking points.

11.4 Qualifier Event Format

Group	Players
Group A	5
Group B	5
Group C	5
Group D	5

Standard qualifier events operate with four groups of five players. Each group plays a round■robin format, meaning each player competes against every other player within their group.

11.5 Match Format

Group stage matches are played as Race to 3 legs. Matches are scheduled in 25■minute time blocks to maintain consistent event timing throughout the day.

11.6 Advancement to Knockout Stage

Group	Advancing Players
Group A	Top 4
Group B	Top 4
Group C	Top 4
Group D	Top 4

The top four players from each group advance to the knockout stage, creating a sixteen■player single elimination bracket.

11.7 Scorekeeping Procedures

Scorekeepers are responsible for recording match results and updating standings. When available, DartConnect tablets should be used to record scores and automatically track player statistics.

11.8 Event Administration

District directors manage registrations, oversee prize payouts, conduct the 50/50 draw, and ensure that event results are properly recorded and reported to the AADS Commissioner.

11.9 Event Reporting

After each event, directors must submit the final standings, ranking points distribution, and financial summary to the AADS Commissioner. This ensures transparency across all districts within the league.

SECTION 12 — BROADCAST PRODUCTION MANUAL

The Atlantic Amateur Darts Series (AADS) utilizes a structured broadcast production system to livestream featured matches and promote the league across Atlantic Canada. The broadcast allows players to gain experience performing under live conditions while building exposure for the AADS circuit and its sponsors.

12.1 Broadcast Team Structure

Role	Primary Responsibility
Production Director	Controls broadcast, cameras, graphics and hosts the stream
Statistics Analyst	Provides match statistics and numerical analysis
Player Analyst	Conducts player interviews and provides strategy commentary

12.2 Production Director

The Production Director manages the entire broadcast. Responsibilities include switching camera angles, operating livestream software, introducing matches, controlling overlays, running sponsor graphics, and providing AADS announcements throughout the broadcast.

12.3 Statistics Analyst

The Statistics Analyst focuses on match statistics and analytical commentary. This role highlights player averages, scoring patterns, match momentum, and historical performance data during the broadcast.

12.4 Player Analyst

The Player Analyst provides insights on player strategies and conducts post■match interviews with winning competitors after featured matches.

12.5 Post■Match Interview Procedure

After a featured match concludes, the winning player remains in the playing area and is directed to the interview position. The Player Analyst leaves the broadcast booth to conduct the interview while the Production Director introduces the segment and transitions the broadcast to the interview camera.

12.6 Interview Audio System

Equipment	Purpose
Wireless headset	Communication between analyst and production booth
Wireless lapel microphone	Captures player interview audio

Production headset	Director communication with broadcast team

12.7 Livestream Board Setup

Board	Purpose
Board 1	Primary livestream feature board
Board 2	Secondary competition board

12.8 Broadcast Opening Sequence

Each event begins with a 15■minute pre■show video containing event graphics, player highlight cards, sponsor advertisements, merchandise promotions, and upcoming event announcements before transitioning into the live broadcast introduction.

12.9 Sponsor Promotion

Sponsors are promoted throughout the broadcast using logo placement, commercial slides, commentator mentions, and branded interview segments such as the sponsored post■match interview.

12.10 Broadcast Objectives

The AADS broadcast system is designed to build player exposure, strengthen the AADS brand, promote sponsors, and prepare competitors for performing under professional live■event conditions.

SECTION 13 — VENUE LAYOUT & CAMERA SETUP

This section provides recommended venue layouts for Atlantic Amateur Darts Series (AADS) events. Proper venue setup ensures matches run efficiently while allowing space for players, spectators, and livestream production equipment.

13.1 Minimum Venue Requirements

Requirement	Minimum Standard
Dartboards	8 boards minimum
Recommended Full Setup	Up to 16 boards
Livestream Feature Board	1 board dedicated for broadcast
Production Booth	1 area for broadcast equipment
Interview Area	1 designated interview location

13.2 Standard Tournament Board Layout

Boards should be arranged to allow multiple matches simultaneously while maintaining safe throwing lanes and adequate player spacing. A full tournament venue may support up to sixteen boards.

Row 1	B1	B2	B3	B4
Row 2	B5	B6	B7	B8
Row 3	B9	B10	B11	B12
Row 4	B13	B14	B15	B16

13.3 Livestream Feature Board

One board should be designated as the livestream feature board. This board should have extra space to accommodate cameras and lighting for broadcast production.

Component	Purpose
Board Camera	Captures dartboard scoring
Player Camera	Shows player reactions
Wide Camera	Captures full match area

13.4 Production Booth Layout

The production booth houses the livestream control equipment and commentary team. This area should be positioned away from active player traffic but with clear visibility of the feature board.

Equipment	Purpose
Broadcast Computer	Runs livestream software
Camera Controls	Switches camera feeds
Audio Mixer	Controls microphone levels
Commentary Microphones	Used by broadcast team

13.5 Post-Match Interview Area

A designated interview location should be placed near the playing area but positioned away from active boards. A marked floor position (such as green tape) indicates where the player stands during the interview while the interviewer stands off camera.

13.6 Spectator Area

Spectator seating should be placed behind the player areas to prevent interference with active matches. When hosting livestream events, the venue should allow clear viewing lines for both spectators and cameras.

13.7 Venue Setup Summary

Category	Recommended Setup
Boards	8 minimum / 16 preferred
Livestream Boards	1 feature board
Cameras	2–3 cameras
Production Booth	1 station
Interview Area	1 designated location

SECTION 14 — RANKING LEADERBOARD TEMPLATES

This section provides standardized leaderboard templates used to track player rankings throughout the Atlantic Amateur Darts Series season. These templates ensure that every AADS district records rankings in the same format across the league.

14.1 Qualifier Ranking Points System

Placement	Points
1st	10
2nd	9
Joint 3rd	8
Joint 5th	6
Joint 9th	4
Participation	2

Tournament of Champions events do not award ranking points. Only qualifier events contribute toward official AADS rankings.

14.2 Weighted Ranking Rule

Players who finish 1st or 2nd in a qualifier automatically qualify for the Tournament of Champions and receive weighted ranking points across the entire three-qualifier cycle.

Player	QF1	QF2	QF3	Total
Player A (1st QF1)	10	10	10	30
Player B (2nd QF1)	9	9	9	27

14.3 Example Leaderboard

Rank	Player	QF1	QF2	QF3	Total
1	Player A	10	10	10	30
2	Player B	9	9	9	27
3	Player C	8	10	10	28
4	Player D	6	9	9	24
5	Player E	8	6	8	22
6	Player F	6	8	6	20

7	Player G	4	6	6	16
8	Player H	6	4	4	14
9	Player I	4	4	4	12
10	Player J	4	4	2	10

14.4 Tournament of Champions Qualification

Qualifier	Automatic Qualifiers
Qualifier 1	1st and 2nd
Qualifier 2	1st and 2nd
Qualifier 3	1st and 2nd
Total	6 Players

14.5 Wildcard Qualification

Rank	Player	Status
1	Player A	Qualified
2	Player B	Qualified
3	Player C	Wildcard
4	Player D	Wildcard
5	Player E	Wildcard
6	Player F	Wildcard

14.6 Blank Ranking Template

Rank	Player	QF1	QF2	QF3	Total
1					
2					
3					
4					
5					
6					
7					
8					
9					

10					

SECTION 15 — TOURNAMENT BRACKET TEMPLATES

This section provides standardized bracket templates used across the Atlantic Amateur Darts Series (AADS). These bracket structures ensure every district operates tournaments using the same competitive format. The following examples include the Qualifier Knockout Bracket, the Tournament of Champions bracket, and the Elite Masters Championship bracket.

15.1 Qualifier Knockout Bracket (Top 16)

After group stage play, the top 16 players advance to a single elimination knockout bracket. Matches continue until a champion is determined.

Round of 16	Quarterfinals	Semifinals	Final
Match 1	Winner M1 vs Winner M2	Winner QF1 vs Winner QF2	Champion
Match 2			
Match 3	Winner M3 vs Winner M4		
Match 4			
Match 5	Winner M5 vs Winner M6	Winner QF3 vs Winner QF4	
Match 6			
Match 7	Winner M7 vs Winner M8		
Match 8			

15.2 Tournament of Champions Bracket (10 Players)

The Tournament of Champions features 10 players. Six players qualify automatically by finishing 1st or 2nd in qualifiers. Four additional players qualify through the ranking wildcard system.

Stage	Description
Play-In Round	Lowest ranked players compete for entry into main bracket
Quarterfinals	8 remaining players
Semifinals	4 remaining players
Final	2 players compete for the championship

15.3 Elite Masters Championship Bracket (24 Players)

The Elite Masters Championship features 24 players representing AADS districts. Players are divided into four groups of six. The top four players from each group advance to the knockout stage.

Stage	Players Remaining
Group Stage	24 players (4 groups of 6)
Knockout Stage	Top 16 players
Quarterfinals	8 players
Semifinals	4 players
Final	2 players

Only the quarterfinals, semifinals, and final matches of the Elite Masters Championship are livestreamed as the official Elite Championship broadcast.

SECTION 16 — FINANCIAL TRACKING SYSTEM

This section provides standardized financial tracking templates for all Atlantic Amateur Darts Series (AADS) districts. These templates ensure transparent reporting of qualifier revenue, Tournament of Champions funds, Elite Masters contributions, and 50/50 event proceeds.

16.1 Example Qualifier Revenue (20 Players)

Item	Calculation	Amount
Players	20	
Entry Fee	$30	
Total Revenue	20 x $30	$600
Qualifier Payout ($10)	20 x $10	$200
TOC Fund ($15)	20 x $15	$300
Elite Fund ($5)	20 x $5	$100

16.2 Example Qualifier Revenue (24 Players)

Item	Calculation	Amount
Players	24	
Entry Fee	$30	
Total Revenue	24 x $30	$720
Qualifier Payout ($10)	24 x $10	$240
TOC Fund ($15)	24 x $15	$360
Elite Fund ($5)	24 x $5	$120

16.3 50/50 Event Tracking

Each qualifier event runs a 50/50 draw. Half of the total is awarded to the winning ticket holder and the remaining half contributes to AADS championship funding.

Example 50/50 Sales	Amount
Total Ticket Sales	$200
Winner Prize	$100
League Contribution	$100

16.4 Tournament of Champions Fund Tracking

Event	Contribution	Running Total
Qualifier 1	$360	$360
Qualifier 2	$360	$720
Qualifier 3	$360	$1080
TOC Cap Applied		$1000
Overflow to Elite Fund		$80

16.5 Tournament of Champions Payout Example

Placement	Prize
1st	$390
2nd	$220
Joint 3rd	$100

5th–10th	$30 each

16.6 Elite Masters Fund Growth Example

Province	Annual Elite Contribution
New Brunswick	$1,800
Nova Scotia	$1,800
Prince Edward Island	$600
Total Elite Fund	$4,200

16.7 Season Projection Example (24 Players)

Category	Calculation	Amount
Players per Qualifier	24	
Qualifiers per Year	9	
Total Entry Revenue	24 x 30 x 9	$6,480
Total TOC Contributions	360 x 9	$3,240
Total Elite Contributions	120 x 9	$1,080

These financial tracking templates allow district directors to maintain consistent financial records throughout the season and ensure transparency across the Atlantic Amateur Darts Series circuit.

SECTION 17 — OFFICIAL AADS FORMS & ADMINISTRATION

This section contains the official administrative forms used by the Atlantic Amateur Darts Series. These documents help ensure that all districts operate with consistent standards, financial transparency, and proper player registration procedures.

17.1 District Director Agreement

District directors are responsible for organizing qualifier events, maintaining financial records, tracking rankings, and ensuring that events follow AADS policies and procedures.

SECTION 18 — AADS FOUNDING STATEMENT

The Atlantic Amateur Darts Series was founded to create a professional, transparent, and competitive darts circuit for players across Atlantic Canada.

The league was designed to give regional players an opportunity to compete in structured events that reflect the organization and professionalism of major darts tournaments while remaining accessible to the Atlantic Canadian darts community.

Through consistent rules, transparent financial structures, and cooperation between districts, the AADS provides an environment where players can improve their skills, gain experience in livestreamed match environments, and represent their province in high-level competition.

The AADS continues to expand through dedicated district directors, volunteers, and players who share a commitment to growing the sport of darts throughout Atlantic Canada.
